Information for Physicians and Patients About DES

FOUR PUBLICATIONS related to diethylstilbestrol (DES) exposure in utero are available without cost from the National Cancer Institute. Two of the publications are for health professionals: *Information for Physicians* and an illustrated *Atlas of Findings*. Two updated and expanded pamphlets for distribution to patients or the public also are available: *Questions and Answers About DES Exposure During Pregnancy and Before Birth* and *Were You or Your Daughter or Son Born After 1940?*

Please indicate number of copies desired when ordering from

Office of Cancer Communications
Department DES
